

Consulting, training, support

Of course we support gladly all authors of study materials.

In addition we offer regularly and among other things training courses for tutors and students, with which the different techniques for the conversion of texts and diagrams are obtained. Appropriate manuals are present.

Furthermore, the electronic aids of the SZS are available to all students and authors according to prior agreement.

For questions and further information

Partner for literature conversions in the SZS is **Dr. Thorsten Schwarz**. For inquiries send an email to

material@szs.kit.edu

or just call and/or pass by.
